"At the end of the first quarter, we offered new shares of common stock resulting in approximately \$53.7 million raised through the common stock offering. Since the offering, we closed \$76.6 million in investments. # (1) Supplemental information regarding adjusted net investment income:

On a supplemental basis, we disclose adjusted net investment income ("Adjusted NII") (including on a per share basis), which is a financial measure calculated and presented on a basis of methodology other than in accordance with generally accepted accounting principles of the United States of America ("non-GAAP"). Adjusted NII represents net investment income excluding the net capital gains incentive fee in periods in which they occur including the effect of reversals of previously accrued capital gains incentive fees. Our management agreement with OFS Capital Management, LLC ("OFS Advisor") provides that a capital gains incentive fee is determined and paid annually with respect to realized capital gains (but not unrealized capital gains) to the extent such realized capital gains exceed realized and unrealized capital losses for such year. Management believes that Adjusted NII is a useful indicator of operations exclusive of any net capital gains incentive fee, as net investment income does not include gains associated with the capital gains incentive fee. In addition, management believes that providing Adjusted NII may facilitate a more complete analysis and greater transparency into OFS Capital's ongoing operations, particularly in comparing underlying results from period to period, and afford investors a view of results that may be more easily compared to those of other companies. Reconciliations of net investment income to Adjusted NII are set forth in Schedule I.

(2) See Highlights contained in this press release for further information on our weighted average yield. Including assets on non-accrual, the weighted average yield of our debt investment portfolio was 11.04% at June 30, 2017.

### **FOLLOW-ON PUBLIC OFFERING**

In April 2017, we issued 3,625,000 shares of our common stock in a follow-on public offering at an offering price of \$14.57 per share (the "Offering"), including shares purchased by the underwriters pursuant to their exercise of the over-allotment option. OFS Advisor paid all of the underwriting discounts and commissions and an additional supplemental payment of \$0.25 per share, representing the difference between the public offering price of \$14.57 per share and the net offering proceeds of \$14.82 per share, which also represented our NAV per share at the time of the Offering. All payments made by OFS Advisor in connection with the Offering are not subject to reimbursement by us. We received net proceeds from this

### **RESULTS OF OPERATIONS**

#### Income

### Interest Income:

Interest income increased by \$0.4 million for the three months ended June 30, 2017 compared to the three months ended June 30, 2016. The increase was primarily due to a \$0.6 million increase caused by a 10% increase in the average outstanding loan balance, offset by a \$0.1 million decrease caused by a 2% decrease in our weighted average yield in our portfolio, and a \$0.1 million decrease in Net Loan Fee (loan origination fees, original issue discount, market discount or premium, and loan amendment fees) amortization. Acceleration of Net Loan Fees of \$0.1 million and \$0.2 million were included in interest income for the three months ended June 30, 2017 and 2016, respectively.

# Fee Income:

Fee income decreased by \$0.1 million for the three months ended June 30, 2017 compared to the three months ended June 30, 2016, primarily due to a \$0.2 million decrease in prepayment fees, offset by a \$0.1 million increase in structuring fees. We recorded prepayment fees of \$0.2 million resulting from \$11.3 million of unscheduled principal payments during the three months ended June 30, 2017 compared to prepayment fees of \$0.4 million resulting from \$12.7 million of unscheduled principal payments we recorded during the three months ended June 30, 2016. We recorded structuring fees of \$0.2 million in connection with the closing of \$18.3 million of investments during the three months ended June 30, 2017 compared to structuring fees of \$0.1 million in connection with the closing of \$5.0 million of investments during the three months ended June 30, 2016.

# **Expenses**

Management fee expense for the three months ended June 30, 2017, increased over the corresponding period in the prior year due to an increase in our average total assets, primarily due to a increase in net investment activity, including additional deployment of funds from the Offering.

Incentive fee expense decreased by \$0.9 million for the three months ended June 30, 2017, compared to the three months ended June 30, 2016. The decrease was primarily due to a \$0.3 decrease in accrued capital gains incentive fee during three months ended June 30, 2017, which represents the reversal of accrued capital gains incentive fees at March 31, 2017, and a \$0.6 million decrease in the Part One incentive fee (based on net investment income), due to a share issuance adjustment related to the Offering, determined by adjusting the value of net assets, at March 31, 2017 by the daily weighted average of the Offering proceeds available to us during the three months ended June 30, 2017.

General and administrative fee expenses increased by \$0.2 million for the three months ended June 30, 2017, compared to the three months ended June 30, 2016, primarily due to the write-off of deferred offering costs in connection with the expiration of the related shelf registration statement.

### Net gain (loss) on investments

Net gain (loss) on investments consists of the sum of: (a) realized gains and losses from the sale of debt or equity securities, or the redemption of equity securities; and (b) changes in net unrealized appreciation/depreciation on debt and equity investments. In the period in which a realized gain or loss is recognized, such gain or loss will generally be offset by the reversal of previously recognized unrealized appreciation or depreciation, and the net gain recognized in that period will generally be smaller. The unrealized appreciation or depreciation on debt securities is also reversed when those investments are redeemed or paid off prior to maturity. In such instances, the reversal of unrealized appreciation or depreciation will be reported as a net loss or gain, respectively, and may be partially offset by the acceleration of any premium or discount on the debt security in interest income and any prepayment fees on the debt security in fee income.

We recognized net losses of \$2.6 million on senior secured debt during the three months ended June 30, 2017, primarily as a result of the negative impact of portfolio company-specific performance factors, including an unrealized loss of \$3.0 million recognized on our senior secured debt investment in My Alarm Center, LLC, which was placed on non-accrual at June 30, 2017, partially offset by the positive impact of changes to certain market loan indices. A cumulative unrealized loss of \$5.0 million at June 30, 2017, on My Alarm Center, LLC was realized subsequent to June 30, 2017 upon restructure of our senior secured debt investment and will be reflected in our third quarter financial statements.

We recognized net losses of \$2.1 million on subordinated debt during the three months ended June 30, 2017, primarily as a

result of the negative impact of portfolio company-specific performance factors, including an unrealized loss of \$1.4 million recognized on our subordinated debt investment in Community Intervention Services, Inc., which was placed on non-accrual during 2016.

We recognized net losses of \$0.3 million on preferred equity investments for the three months ended June 30, 2017, primarily as a result of the net negative impact of portfolio company-specific performance factors, offset by the net positive impact from changes to EBITDA multiples used in our valuations.

We recognized net losses of \$1.5 million on common equity and warrant investments for the three months ended June 30, 2017, primarily as a result of the negative impact of portfolio company-specific performance factors. Included in the net loss was a realized gain of \$0.9 million from the sale of a common equity investment, which through March 31, 2017, we recognized unrealized gains of \$0.7 million, resulting in a net gain of \$0.2 million during the three months ended June 30, 2017.

### **LIQUIDITY AND CAPITAL RESOURCES**

At June 30, 2017, we had \$46.9 million in cash and cash equivalents and \$149.9 million in outstanding SBA-guaranteed debentures. As of June 30, 2017, we had \$19.0 million available for additional borrowings on our senior secured revolving credit facility with Pacific Western Bank and had drawn all of our available SBA-guaranteed debentures.

### Schedule I

## Non-GAAP Financial Measure - Adjusted NII

On a supplemental basis, we disclose Adjusted NII (including on a per share basis), which is a financial measure calculated and presented on a non-GAAP basis. Adjusted NII represents net investment income excluding the net capital gains incentive fee in periods in which they occur, including the effect of reversals of previously accrued capital gains incentive fees. Our management agreement with OFS Advisor provides that a capital gains incentive fee is determined and paid annually with respect to realized capital gains (but not unrealized capital gains) to the extent such realized capital gains exceed realized and unrealized capital losses for such year. Management believes that Adjusted NII is a useful indicator of operations exclusive of any net capital gains incentive fee, as net investment income does not include gains associated with the capital gains incentive fee. In addition, management believes that providing Adjusted NII may facilitate a more complete analysis and greater transparency into OFS Capital's ongoing operations, particularly in comparing underlying results from period to period, and afford investors a view of results that may be more easily compared to those of other companies.

The following table provides a reconciliation from net investment income (the most comparable GAAP measure) to Adjusted NII for the periods presented (dollar amounts in thousands, except per share data):

	Quarter ended June 30,				
	2	017	2016		
Net investment income	\$	4,316	\$	3,457	
Capital gains incentive fee		(283) (1)		_	
Adjusted net investment income	\$	4,033	\$	3,457	
Adjusted net investment income per common share: Basic and diluted	\$	0.31	\$	0.36	
Weighted average shares outstanding: Basic and diluted	13,1	97,759	9,6	92,346	

(1) Represents the reversal of accrued capital gains incentive fees at March 31, 2017.
