### Second Quarter 2022 Highlights

- » Net investment income per share for the second quarter was \$0.47 per share, up \$0.25 per share in the prior quarter, primarily due to a \$3.0 million, or \$0.23 per share, non-cash reversal of previously accrued capital gains incentive fee was due to aggregate net unrealized depreciation recognized during the second quarter primarily due to widening of liquid credit market spreads
- » Excluding the impact of the capital gains incentive fee, Adjusted Net Investment Income<sup>2</sup> per share for the second quarter was \$0.24, down from \$0.30 per share in the prior quarter primarily due to lower dividend and fee income
- » Loss per share for the second quarter was \$1.13. The net loss for the quarter was primarily due to net unrealized depreciation recognized during the quarter due to significant widening of credit market spreads
- » Declared a distribution per share of \$0.29 for third quarter of 2022; unchanged from previous quarter<sup>1</sup>

# Supplemental Schedule I

### Supplemental Schedule I – Adjusted Net Investment Income

On a supplemental basis, we disclose Adjusted NII (including on a per share basis), which is a financial measure calculated and presented on basis other than in accordance with generally accepted accounting principles of the United States of America ("GAAP"). Adjusted NII represents net investment income, excluding the capital gains, incentive fee, in periods in which such expense occurs. GAAP requires recognition of a capital gains incentive fee in our financial statements when aggregate net realized and unrealized capital gains, if any, on a cumulative basis from the date of the election to be a BDC through the reporting date is positive. Such fees are subject to further conditions specified in the investment advisory agreement with OFS Capital Management, LLC, principally related to the realization of such net gains, before OFS Capital Management, LLC is entitled to payment, and such recognized fees are subject to the risk of reversal should unrealized gains diminish to become losses. Management believes that Adjusted NII is a useful indicator of operations exclusive of any net capital gains incentive fee, as net investment income does not include the net gains, realized or unrealized, associated with the capital gains incentive fee.

Management believes Adjusted NII facilitates analysis of our results of operations and provides greater transparency into the determination of incentive fees. Adjusted NII is not meant as a substitute for net investment income determined in accordance with GAAP and should be considered in the context of the entirety of our reported results of operations, financial position and cash flows determined in accordance with GAAP.

The following table provides a reconciliation from net investment income (the most comparable GAAP measure) to Adjusted NII for the quarter ended June 30, 2022 and March 31, 2022:

	June 30, 2022	М	arch 31, 2022
	Per Share		Per Share
Net investment income	\$ 0.47	\$	0.22
Capital Gains Fee	(0.23)		0.08
